

San Diego California Concrete Consultant

Concrete construction is becoming increasingly complex, thus the potential for problems occurring have never been greater. Should problems occur either during construction or at some subsequent time there after New Images can help. We have extensive experience in diagnosing and solving many concrete related problems.

Our Range of Consulting Services includes:

- On site consulting and troubleshooting.
- On site concrete testing
- Written and photo documents for evidence compiled into reports.
- Reconciliation of parties - negotiation, mediation, arbitration or litigation of disputes.
- Expert Witness Services
- Recommend methods of repair.

We have considerable experience under new civil procedure rules in writing litigation reports as well as advising counsel and where necessary giving expert evidence in court.
